INDEX TO VOLUME 34

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Biographies, Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

Abnormalities and Deformities: See also Twins; and under names of organs and regions, as Cornea; Eyes, abnormalities; Eyes, absence; etc.
cataract and other congenital defects in infants following rubella in mother, *24
Abscess: See under names of organs and regions, as Sclera; etc.
Accommodation and Refraction: See also Astigmatism; Glasses; Myopia; Presbyopia; etc.
accommodation of presbyopia and its correction, *389
analysis of cases of aniseikonia, 165
cardinal points in static and in dynamic eye, *319
clinical use of ophthalmic prisms (metric), *16
dark adaptation as means of detecting deficiency of vitamin A, 461
Edward Jackson's place in history of refraction, 65
effect of duration of stimulus on threshold measurements in dark adapted eye, 69
efficiency of lens; clinical concept, 466
law of physiologic aging as derived from long range data on refraction of human eye, *378
lens in accommodation, 338
photometer for measuring scotopic candlepowers of self-luminous ophthalmic test object, 339
posterior principal plane of optical system of eye and significance for refraction, *107
principles of retinoscopy presented on basis of theory of projection, 156
stereoscopic sensitivity in space eikonometer, *303
Acetylcholine, Therapy: See under Cornea
Acid, Ascorbic: See Ascorbic Acid
Cevitamic: See Ascorbic Acid
Adaptometer: See Accommodation and Refraction
Adipose Tissue: See Fat
Adler, F. H.: Effect of anoxia on heterophoria and its analogy with convergent concomitant squint, *227
Adrenals, hypertensive retinopathy associated with adrenal medullary tumor (pheochromocytoma); new clinical entity, *402
retro-orbital adrenal rest tumor, 159
Aeronautics: See Aviation and Aviators
Age, law of physiologic aging as derived from long range data on refraction of human eye, *378
Old: See Old Age
Air, pressure; effect of anoxia on heterophoria and its analogy with convergent concomitant squint, *227
Albinism, total, of eyes; report of case, 451
with coexisting anomalies of central nervous system, 166
Alcohol, Butyl: See Butyl Alcohol
Allen, L.: Gonioscopy simplified by contact prism, *413
Allen, T. D.: Congenital glaucoma and bilateral cataract treated with goniotomy and needling; report of case, 161
Alopecia areata (pelada) of eyelids, 252
Alpers, B. J.: Foster Kennedy syndrome with post-traumatic arachnoiditis of optic chiasm and base of frontal lobes, *399
Amaurosis: See Blindness
Amblyopia: See Blindness; Strabismus
Amblyoscopes, precisional errors in measurement of squint and phoria, *7, 464
American Board of Ophthalmology, 171, 450
Amyloidosis; amyloid disease of conjunctiva, 167, 451
Anesthesia, effect of local anesthetics on cell division and migration following thermal burns of cornea, *271
unilateral hypotony (due to badly adjusted mask) during, 458
Anesthetics: See Anesthesia
Angioid Streaks: See Retina, blood supply
Angioscotometry: See Scotoma
Angiospasm: See under Retina
Aniseikonia: See Accommodation and Refraction
Anomalies: See Abnormalities and Deformities; Twins; and under names of organs and regions
Anophthalmos: See Eyes, absence
Anopsia: See Blindness
Anoxia: See Oxygen, deficiency
Antrum: See Maxillary Sinus
Aphasia, word blindness; its cause and cure, 455
Apparatus: See also Instruments
modification of blood pressure apparatus for use by blind, *113
Aqueous Humor; development of secretory function of ciliary body in rabbit eye evaluated from ascorbic acid concentrations and changes in volume, *415
dynamic factors in formation and reabsorption of, 458
Arachnodactylia and anterior megalophthalmos, 451
Marfan's syndrome with unusual complications; report of case, *112, 336
ocular changes associated with, 342
report on 2 pairs of brothers showing Marfan's syndrome, 155
Arachnoid, inflammation; Foster Kennedy syndrome with post-traumatic arachnoiditis of optic chiasm and base of frontal lobes, *399
Archives of Ophthalmology, request for copies for ophthalmologists abroad, 468
Area Martegiani: See Vitreous Humor
Argyll Robertson Pupils: See under Pupils
Ariboflavinosis: See Riboflavin
Armed Forces Personnel: See Aviation and Aviators; Military Medicine; etc.
Arsenic and Arsenic Compounds; arsenic poisoning in herpes zoster ophthalmicus, *117
toxicity of arsenical compounds for optic nerve; contraindications, 254
Arteries: See also Blood pressure; Embolism; Endarteritis; etc.
persistence of hyaloid artery; interesting aspect of its ophthalmoscopic identification, 250
Retinal: See Retina, blood supply
unilateral pulsating exophthalmos caused by rupture of carotid artery in cavernous sinus of opposite side; report of case, 253
Arthritis, gonorrheal syndrome without gonorrhea; Reiter's disease, *97
Ascorbic Acid, development of secretory function of ciliary body in rabbit eye evaluated from ascorbic acid concentrations and changes in volume, *415
vitamin C saturation and senile cataract, *202
Astigmatism, factors in examination of, 70
retinoscopy in, 156
Atkinson, W. S.: Interstitial keratitis treated with subconjunctival injections of penicillin, *233
Atrophy: See under names of organs and regions, as Nerves, optic; etc.
Auditory Organ: See Ear
Avery, J. W.: Unusual case of Hodgkin's disease; second report, *318
Aviation and Aviators; norms of latent strabismus in selection of candidates for aviation schools, 157
Avitaminosis: See under Vitamins; and under names of deficiency diseases
Awards, Leslie Dana gold medal award, 249

Bacilli: See Bacteria
Bacteria: See also Staphylococci; Viruses; etc.
Abortus and Melitense Group: See also Undulant Fever
abortus and melitense group; production of lens sensitivity in rabbits by Brucella infection, 65
Granulosis: See Trachoma
Pneumococcal: See Pneumococci
value of cultures before operation for cataract, *215
Baker, D. C., Jr.: Diseases of ear, 259
Baldness: See Alopecia
Barlow, A.: Traumatic iridodialysis; its surgical correction; report of case, *292
Basedow's Disease: See Goiter, exophthalmic
Beall, J. G.: Ocular varicella; report of case of corneal phlyctenule, *411

Bedell, A. J.: Angioid streaks in deep layers of retina, 168
Clinical differentiation of emboli in retinal arteries from endarteritis, *311

Berens, C.: Making of ophthalmologist, 255
Berke, R. N.: Blepharoptosis, *435
Berkeley, Bishop; introduction to theory of vision, 341
Bernstein, F.: Law of physiologic aging as derived from long range data on refraction of human eye, *378
Bielschowsky, Alfred, reprinting of "Lectures on Motor Anomalies," 335

BIOGRAPHIES:
Johannes Müller; sketch of his life and ophthalmologic works, 166

Biophotometer: See Accommodation and Refraction
Birth, Premature: See Premature Infants
Blennorrhea: See Conjunctivitis; Gonorrhea
Blepharitis: See Eyelids
Blepharoplasty: See under Eyelids
Blepharoptosis: See Eyelids, ptosis
Blindness: See also Ophthalmia neonatorum; Vision; etc.
amblyopia in cases of reading failure, 69
modification of blood pressure apparatus for use by blind, *113
ocular maldevelopment in extremely premature infants; retrolental fibroplasia; general consideration, 451
one-eyed worker, 455
ophthalmologic lesions encountered in tropics, with reference to ocular manifestations of malaria, 250
research project in cause of blindness due to onchocerciasis in Guatemala, 335
Word Blindness: See Aphasia
Blinking: See under Reflex
Blood and spinal fluid in herpes zoster ophthalmicus, *128
development of secretory function of ciliary body in rabbit eye evaluated from ascorbic acid concentrations and changes in volume, *415
pressure, high; etiopathogenesis of "essential" arterial hypertension; present conception of problem, 459
pressure, high; hypertensive retinopathy associated with adrenal medullary tumor (pheochromocytoma); new clinical entity, *402
pressure, high; ophthalmoscopic classification of hypertensive diseases, 67
pressure, high; retinal vascular micrometry and essential hypertension, *321
pressure; modification of blood pressure apparatus for use by blind, *113
pressure; ophthalmodynamometry, *234
Bloomfield, S.: Lability of ocular tension; test to determine individual variations, *83
Bones: See also under names of bones
fragility; blue sclerotics associated with bony defects in nose, 453

BOOK REVIEWS:
Bibliography of Visual Literature 1939-1944; J. F. Fulton, P. M. Hoff and H. T. Perkins, 172
Doctors at War; edited by M. Fishbein, 261
Frederick II, Emperor of Holy Roman Empire: Art of Falconry, Being De arte venandi cum avibus; translated and edited by C. A. Wood and F. M. Fyfe, 261

Bourneville's Disease: See Sclerosis, tuberous
Bowman Membrane: See under Cornea
Bracken, F.: Complications incident to simple intracapsular extraction; some procedures designed toward prevention, *427
Instruments for use in operation for cataract; anterior chamber irrigator and 2 forceps modified for suturing, *430
Brain: See also Cerebellum; Nervous System; etc.
association between retinopathies and encephalopathies in common cardiovasculorenal affections, 64
Diseases: See Encephalitis; etc.
effects of stimulation and lesion of median longitudinal fasciculus in monkey, 340

Brain—Continued
Foster Kennedy syndrome with post-traumatic arachnoiditis of optic chiasm and base of frontal lobes, *399
localization of cerebral lesion, 252
Sclerosis: See Sclerosis
simple atrophy of optic disk; sign of subtentorial tumor, 156
Breast cancer; bilateral metastatic carcinoma of choroid with roentgen ray therapy of 1 eye, 164
secondary carcinoma in anterior chamber, 340
Brucella: See Bacteria, abortus and melitense group
Brucellosis: See Undulant Fever

Caruncle: See Lacrimal Organs
Castor Bean; self-inflicted conjunctivitis; account of cases produced by jequirity and castor oil seeds, 452
Cataract and other congenital defects in infants following rubella in mother, *24
complicated, associated with spontaneous detachment of retina, 161
congenital glaucoma and bilateral cataract treated with goniotomy and needling; report of cases, 161
extraction: complications incident to simple intracapsular extraction: some procedures designed toward prevention, *427
extraction; glaucoma due to peripheral anterior synechias after operation for cataract, 162
extraction; instruments for use in operation for cataract; anterior chamber irrigator and 2 forceps modified for suturing, *430
extraction; removal of ruptured capsule after operations for cataract, 160
extraction; scleral flap incision with scleral sutures for operation, *374
extraction; value of cultures before operation for cataract, *215
senile, and vitamin C saturation, *202
senile, extraction of, 65
traumatic, transparency of lens following, 456
Catgut: See Cataract; Sutures; etc.
Causalgia: See Neuralgia
Cauterization: See under names of various diseases
Cavernous Sinus, unilateral pulsating exophthalmos caused by rupture of carotid artery in cavernous sinus of opposite side; report of case, 253
Cells, effect of local anesthetics on cell division and migration following thermal burns of cornea, *271
Inclusion: See Trachoma
mitotic and wound-healing activities of corneal epithelium, 170
Cerebellum, simple atrophy of optic disk; sign of subtentorial tumor, 156
Cerebrospinal Fluid and blood in herpes zoster ophthalmicus, *128
Cerebrum: See Brain
